

Blessings in your ministry of leadership of a local church and its people! This Annual Timeline was created to help SPR Committees and pastors plan monthly meetings. It is offered to you by the Bishop and Appointive Cabinet to equip you in your ministry of leadership. Every month in the recommended SPRC Annual Timeline has up to three categories:

- First are **suggested monthly meeting emphases**, offered to provide a framework for discussion. Included in several of the meeting emphases is a Suggested Mission Field Accountability Conversation. This agenda item offers the SPRC an opportunity to discuss a particular aspect of your congregation's engagement with your community mission field.
 - Second, some months in the timeline include a section for **new appointments**. Experience has shown that congregational and pastoral intentionality in the welcoming and first several months makes a huge difference in the fruitfulness of a new pastor.
 - Third, **reminders** are included so that the SPRC can stay on track to submit required forms. Conference forms are a primary tool for the appointive process. Your clarity, self-awareness, and feedback are vital to ensuring appropriate pastoral leadership for your community's mission field and congregation.
